**H. Christopher Moon has been appointed
Business Manager for Purafil's EnerSAVE Program**

DORAVILLE, Ga.—Purafil, Inc., the leading manufacturer of gas-removal air filtration systems, recently named H. Christopher Moon as Business Manager for Purafil's EnerSAVE program, in addition to his position as Regional Sales Manager for the Southeastern United States. As Business Manager for Purafil's Enersave Program, Moon will work with facilities nationwide to help them discover potential energy-savings using ASHRAE 62's Indoor Air Quality (IAQ) Procedure to conserve energy and improve IAQ.

Since 1983, Moon has worked in Purafil's chemical and sales divisions where he established Purafil's training program for international and domestic representatives. As a member of ASHRAE, AWWA, ISA TAPPI and WEF, Moon has served as a keynote speaker for annual conferences and chapter meetings.

For over 30 years Purafil has developed air-cleaning systems that eliminate, control and provide real-time monitoring of corrosive, odorous, hazardous and toxic gases. Purafil maintains nearly 20,000 installations in commercial, industrial and municipal environments worldwide.
