**Purafil, Inc. Plant to Host Congressman David Scott (D-GA)**

**DORAVILLE, Ga.**—Purafil, Inc., the leading manufacturer of gas-removal air filtration systems, will host Congressman David Scott of the 13<sup>th</sup> Congressional District for a plant tour on Wednesday, August 25 from 10 to 11 am. Congressman David Scott will observe the facility's production of gas-phase air purification technologies and meet with Purafil employees for an open discussion.

Congressman David Scott's visit to Purafil is part of an effort to make legislators more aware of both the benefits of manufacturers to communities and the unprecedented challenges now facing America's manufacturing sector. Purafil, Inc. is a member company of the National Association of Manufacturers (NAM), the largest industrial trade association. Purafil's Chief Executive Officer, William Weiller, serves on NAM's board of directors.

For over 30 years Purafil has developed air-cleaning systems that eliminate, control and provide real-time monitoring of corrosive, odorous, hazardous and toxic gases. A privately held company, Purafil maintains nearly 20,000 installations in commercial, industrial and municipal environments worldwide.
