## Purafil Announces New Puracarb® AM Media

New Media has Excellent Removal Efficiency for Ammonia

**DORAVILLE, GA** – Purafil, Inc., the leading manufacturer of air filtration systems for the removal of odors and gaseous pollutants, recently announced Puracarb<sup>®</sup> AM dry-scrubbing media to its product line. Puracarb<sup>®</sup> AM effectively removes ammonia (NH<sub>3</sub>) along with several types of amines and other basic compounds from various commercial, industrial, and wastewater applications.

Puracarb<sup>®</sup> AM replaces the original Purakol<sup>®</sup> AM and maintains a removal efficiency of 99.5% or more for target contaminants. Puracarb<sup>®</sup> AM has UL 900 Class 1 rating for flammability.

For over 40 years, Purafil has been the world leader in the designing, engineering, and manufacturing of gas-phase air filtration systems, air monitors, and UL classified media. Purafil maintains nearly 20,000 installations in cleanroom, commercial, industrial, archival, and waterwastewater treatment settings worldwide.

Purafil's ongoing commitment to quality, customer satisfaction and safety is exemplified by our ISO 9001:2000 certification, numerous industry awards and UL Classified Media.
