**Purafil Joins Chlorine Institute**  
*Industry Leader Establishes*  
*Chlorine Connection Through New Member Association*

**DORAVILLE, GA** – Purafil’s Environmental Systems Division (ESD), a global, single-source gas-phase air filtration manufacturer, recently joined the Chlorine Institute (Ci) as an Associate Member. As a new associate member, Purafil can assist the Ci develop specifications for projects that require air scrubbing. For 85 years, the Ci has intertwined chlorine safety standards and member companies that produce, distribute and use chlorine.

Purafil provides a proactive solution for an accidental chlorine leak. Purafil’s maintenance-free, hazardous-free, dry-chemical emergency gas scrubbers (EGS), which are sized up to 3-tons and bulk-filled with Chlorosorb® Ultra Media, are optimal for facilities that manufacture, house, distribute, or transport chlorine. Purafil’s EGS can effectively mitigate the risks if a leak occurs.

For over 40 years, Purafil has been the world leader in designing, engineering, and manufacturing gas-phase air filtration systems, air monitors, and UL classified granular media. Purafil maintains nearly 30,000 installations in cleanroom, commercial, industrial, archival, and water-wastewater treatment settings worldwide.

Purafil’s ongoing commitment to quality, customer satisfaction and safety are exemplified by our ISO 9001:2000 certification, numerous industry awards and our obligation to the research and development of new clean air technologies.
